

四六级听力—基础能力篇

1. 易混发音的分辨
2. 英式发音与美式发音的区别
3. 连读与缩读弱读
4. 重音与实意重读

1. 易混发音的分辨

1) [e]	[æ]	[ai]
said	sad	side
letter	ladder	lighter
friend	bad	tiger

very vary

2) [w]	[v]
west	vest
wet	vet

3) [ɪ]	[əu]
goal	go
cold	coat

4) [h]

高语速中字母 h 出现在单词词首且非重读时
往往会被“击穿”掉，即字母[h]不发音的情况

5) [u:]	[u]
food	foot
fool	full
pool	pull
luke	look

- 6) [l] [n]
 light night
 let net

2. 英式发音 & 美式发音

大学英语四级考试采取的英式发音与美式发音结合的所谓“国际发音”方式。在考试中大家会听到一男一女一英一美的交替变换发音的奇特现象。

美式发音: General American (GA)

英式发音: Standard British

Received Pronunciation

元音区别:

1) 元音+r

当字母“r”与元音字母组合时，美语会出现卷舌音，而英式英语则不会。

ar car door of course

Tips:

发卷舌音时必须出现元音和字母 r 的组合。单独出现的元音不能发卷舌音。
 nervous umbrella idea

Practice:

1. [ar] far car large charge smart
2. [ir] dear clear fear cheer here
3. [ɛr] air dare pear their where
4. [ɔr] for more door before
5. [ur] [jur] sure poor tour cure fewer
6. [ər] her turn learn word first
7. [aɪr] fire tired higher liar buyer
8. [aʊr] hour flour shower power tower
9. [ɔɪr] destroyer employer

2) 英式英语中的长元音 [ɔ:] 和短元音 [ɒ] 在美语中读作 [ɑ]

bought talk ball caught hot not box

Practice:

coffee water caught law bought boss
 tall talk lawyer fought walk ball cause
 draw daughter August saw ought flaw Paw

3) 英式发音中的 [ʌ] 在美式发音中读成 [ə]

but love come hurry up courage current

4) 英式发音中的 [ɑ:] 一定条件下可转换成美式发音 [æ]

[f]

[ɑ:] + [s] ⇒ [æ] half ask bath

[θ]

辅音区别:

1) American T: 字母 t 出现在词中 并且是非重读音节 前面是元音发音的时候 这时候的字母 t 会读成一个类似于 t 和 d 之间的弹舌音 我们把它叫做 American T

Tips:

字母 T 出现在单词中 不再词首也不再词尾字母 T 前为元音

字母 T 为非重读音节

Practice:

city forty butter water dirty matter better Betty

[t] Italian [d] Italy

[t] attack [d] attic

[t] atomic [d] atom

[t] photography [d] photograph

2) “wh” 组合

英式英语中读成 [w] 美式英语中读成 [hw]. w

hat when where why somewhere somewhat

3. 听力考试中的连读现象

所谓连读 指的是将前一个单词的结尾音节和后面一个单词的开头音节拼读在一起的语音现象 连读会使得语言听起来更加流畅 自然 但是在意群之间有停顿时 两个短语或两个从句间相邻的音不连读

1) 辅音+辅音

2) 辅音+元音

3) 元音+元音

4) 连读音变

井书

辅音+辅音:

当前一个单词以辅音音节结尾后面一个单词以辅音音节开头时可以把前面结尾的辅音和后面开头的辅音连在一起构成连读

失爆 击穿 叠合

1) 失爆

[b] [p] [d] [t] [g] [k] + 与其不相同的辅音时在发爆破音时只阻塞气流却不将之释放只做口型不送气

blackboard breakfast sit down hot day go

od teacher bad boy could be put it down

2) 击穿

当前面一个单词以辅音音节结尾后一个单词以字母 h 的发音开头时字母 h 不再发音发生击穿现象

I like her in his car ask him

3) 叠合

当前一个单词的结尾和后一个单词的开头由完全相同的辅音音节构成时发生叠合现象

a bad dog good day take care I like candy

tame monkey hot day book case big game

辅音+元音:

最常见的一种连读方式将前面的辅音同后面的元音连在一起构成一个音节拼读
ck at look into look out take up

[r] + 元音

Your answers are really excellent.

I have read your article.

far away for instance a number of

[l] + 元音

couple of double of LED LEE

I will ask him later

[n] + 元音

an apple an answer an article in an instant

in a hotel an old lady pen and paper

[t] + 元音

so it is get in get it out of here put it off
take it easy not at all keep it up not alone

元音+元音:

当前面单词以[əu] [au] [u] [u:] 结尾时, 后面单词以元音开头, 在一起连读时要加上半元音[w]

just do it go on on end who else too often doing going you are

当前面单词结尾音节为[ei] [ai] [ɔi] [iə] [i] [i:] 后面单词以元音开头时, 在一起连读时要加上半元音[j].

be on time say it see it she is may I I am weigh it up try it

连读音变:

1) [t] + [j] = [tʃ]

Why don't you come here? Nice to meet you.

2) [d] + [j] = [dʒ]

Would you please... How did you get there?

3) [s] + [j] = [ʃ]

I miss you. Unless you know how to get there.

4. 实意重读 & 弱读 缩读

在构成短语或句子的单词中, 总有一个单词比别的单词读得重一些, 这个单词本身的重读音节也就成为句子的重音. 在不特殊强调或作对比的情况下, 短语或句子的重音往往落在最后一个出现的实词上. 如果不在, 则发生了重读转移, 即实意重读, 也就是听力考试中常见的弦外之音.
