Part I Writing

| 范文

It is a truth universally acknowledged that cooperation plays a significant role in our life and work. However hardly can we achieve a success before we grasp the importance of sincerity and openness.

First of all, in no way can we deny that showing sincerity can greatly increase the opportunity of cooperation as people can tell each other's true feelings and intentions. Even though people may disagree with each other, they can work towards the same goal by openly discussing the difference or even dropping it. Furthermore, it's no exaggeration to say that openness serves as a useful tool in communication for the simple reason that people are willing to hear or even accept other's views and attitudes. A case in point is that an experienced teacher can learn many fresh ideas and concepts if he is open enough to his colleague who is new in the teaching field.

To sum up, we shall never take it for granted that cooperation can be realized easily. Only if we realize the importance of sincerity and openness can we work with the others closely and smoothly.

Part II Listening Comprehension

Section A

Conversation One

M: Hello, Professor Johnson.

W: Hello, Tony, so what shall we work on today?

M: Well, the problem is that this writing assignment isn't coming out right. (1) What I thought I was writing on was to talk about what a particular sport means to me when I participate in it.

W: What sport did you choose?

M: I decided to write about cross-country skiing.

W: What are you going to say about skiing?

M: That's the problem. I thought I would write about how peaceful it is to be out in the country.

W: So why is that a problem?

M: (2) I'd like to start describing how quiet it is to be out in the woods. I keep mentioning how much effort it takes to keep going. Cross-country skiing isn't as simple as some people think. It takes a lot of energy, but that's not the heart of my paper, so I guess I should leave it out. (3) But now I don't know how to explain that feeling of peacefulness without explaining how hard you have to work for it. It all fits together. It's not like just sitting down somewhere and watching the clouds roll by. That's different.

W: Then you have to include that in your point. The peacefulness of cross-country skiing is the kind you earn by effort. Why leave that out? (4) Part of the point you knew beforehand, but part you discovered as you wrote. That's common, right?

M: Yeah, I guess so.

1. What is the topic of the man's writing assignment?
2. What doesn't the man want to leave out?
3. What problem does the man have while working on his paper?
4. What does the woman say is common in writing papers?

1.

【答案】D

【预测分析—关键找到每题的定位词】四个选项多为概括性选项，从第一题可以推断考查主题，标记出关键词 scenery in the countryside/cross-country skiing/pleasure in sport/a sport，可推出主题同体育运动和论文相关。

【考点分析】长对话寒暄之后前三句多出答案，第二句就出了考点。

长对话"所听即所选"原则，男士一开始提到："...was to talk about what a particular spot means to me when I participate in.谈论到的是在参加一项运动时，它对我的特殊含义。"

【错误选项分析】正确细节拼凑，对话中确实出现相似干扰细节 country/cross-country skiing/sports，但是选项进行了重新编写，即"乡村的美丽风景/越野滑雪的危险/运动中的开心和痛苦"，但这些并不是男士论文的内容。

2. 【答案】A

【预测分析】

几个选项没有明显共同点，划出关键词：out in the woods/how much effort it takes to keep going/isn't as simple as some people think/takes a lot of energy。

【考点分析】

所听即所选，但是需注意题目问的是“哪一项不是作者想删掉的内容”。文中“I'd like to start describing how quite it is to be out in the woods.我想要描述在森林我的内心感到多么宁静。”是作者希望表达的内容，所以不是想删掉的。故为答案。

【错误选项分析】

答非所问。原文中说，“我一直在说我花费了多少努力坚持了下来，越野滑雪并非人们想象的那么简单，反之，它是需要花很多精力的。但是这并不是我论文的核心，我觉得我应该删掉。”这段分别对应 B, C, D 三项的内容。根据题意，故不选。

3.

【答案】D

【预测分析—关键找到每题的定位词】四个选项都是以 he 开头，考查与男士相关的细节，并且四个选项均出现否定词，因此可以推测考查的是男士遇见的问题和负面的信息。

【考点分析】长对话所听同义替换，文中提到：“But now I don't know how to explain the feeling of peacefulness without explaining how hard you have to work for it. 不过，如果不说出对所遇到的困难我怎么努力付出，就无法很好地阐述内心的平静。”短文中 how hard...to work for it = effort part of skiing. don't=can't。

通过定位否定词附近出考点。转折词 but 后出考点。

【错误选项分析】正确细节拼凑，利用文中出现的 point/peaceful/assignment/country 等词在增加干扰细节，构成误导选项。

4.

【答案】A

【预测分析—关键找到每题的定位词】

没有明显共同点，标记出关键词 ideas come up / collecting data/made in vain/view often changes。

【考点分析】长对话最后两轮问答必出考点原则。转折词 but 附近出考点。

长对话考查同义替换，“一部分的观点是你事先就知道的，但是有另外一部分是你在写的过程中慢慢挖掘出来的。”

【错误选项分析】无中生有，文章中没有提到“在收集数据期间会花费很多时间/很多努力都白费了”等细节。正确细节拼凑，属于强干扰项，原文是指“观点会不断增加，被挖掘”，而选项中利用 point 进行干扰，但是原文的意思不是“作者的观点会改变”。

Conversation Two

W: What sort of hours do you work, Steve?

M: (5) Well, I have to work very long hours, about eleven hours a day.

W: What time do you start?

M: I work 9 to 3, then I start again at 5:30 and work until 11, six days a week. So I have to work very unsocial hours.

W: And do you have to work at the weekend?

M: Oh, yes, that's our busiest time. I get Wednesdays off.

W: What are the things you have to do and the things you don't have to do?

M: Uh, I don't have to do the washing-up, so that's good. I have to wear white, and I have to keep everything in the kitchen totally clean.

W: What's hard about the job?

M: (6) You are standing up all the time. When we are busy, people get angry and shout, but that's normal.

W: How did you learn the profession?

M: Well, I did a two-year course at college. In the first year we had to learn the basics, and then we had to take exams.

W: Was it easy to find a job?

M: (7) I wrote to about six hotels and one of them gave me my first job, so I didn't have to wait too long.

W: And what's the secret of being good at your job?

M: (8) Attention to detail. You have to love it. You have to show passion for it.

W: And what are your plans for the future?

M: I want to have my own place when the time is right.

5. What does the man say about his job?
6. What does the man think is the hardest part of his job?
7. Where did the man get his first job after graduation?
8. What does the man say is important to being good at his job?

5.

【答案】B

【预测分析—关键找到每题的定位词】你会发现所有选项的开头内容都相似，"It allows/requires/enables/helps + him"，可以理解为"它让 / 需要 / 能够 / 帮助.....他....."，可以推测出当文章开头提到"某件事情对男生的影响"时，第一题的答案就出现了。同时可以快速标记出题干尾部的意群(不要去翻译中文/理解/纠结)，根据六级长对话"所听即所选"原则，保证听的过程中关键词突出，更容易识别、定位即可，a lot of friends/work long hours/theory to practice/understand people better。

【考点分析】长对话前三句多出答案。长对话一问一答出答案。

长对话"所听即所选"原则。文中明显提到："I have to work very long hours, about 11 hours a day."直接对应选项 B。除此之外，后面男生还列举了大量数据来论证自己工作的时间非常长。

【错误选项分析】无中生有，错误选项都是根据部分细节编造出来的"合理错误选项"，做题时一定要在文中找到依据才能选择。

6.

【答案】D

【预测分析—关键找到每题的定位词】这道题每个题干都是"It..."。这很容易推断出考查的是文章主题事物的特征，在听的过程中要仔细听文章中对主题的描述。快速标出关键词 intellectually challenging/washing-up/oily smoke/ physical endurance and patience。

【考点分析】长对话一问一答出答案。

standing up all the time 同义替换成"physical endurance and patience 体力耐力和耐心"。

【错误选项分析】无中生有，看似很符合餐厅打工的逻辑，但是选项中的 intellectually challenging/oily smoke 在原文中完全没有提及。使用相反信息。如果选此选项，则表明你对否定表达 don't 的发音不敏感。文章前部分明确提到 I don't have to do the washing-up，听到这里应该同时在 B 选项后面做上"X"的标记。

7.

【答案】D

【预测分析—关键找到每题的定位词】此题考查的肯定是地点题。注意听某段时期的相关地点或者场景发生的地点。

【考点分析】 访谈型长对话，一问一答出答案。

长对话基本所听即所选。对话中明显提到 six hotels, first job, 与问题完全对应。

【错误选项分析】 无中生有，文章中没有提到任何与医院相关的内容。偷换概念，文章中提到的 washing-up 是由否定词引出，而且跟 laundry（洗衣店）没有直接关系。

8.

【答案】B

【预测分析—关键找到每题的定位词】每一个选项都是动词-ing 形式开头，可以推出考查做某事的状态或者正在做某事。快速浏览选项，标出关键词 colleagues/detail/in advance/needs of customers。

【考点分析】 长对话一问一答出答案。长对话最后两轮问答必出考点原则。

长对话"所听即所选"原则。文章中女生问男生："做好此项工作的秘诀是什么？"男生回答："Attention to detail.把握细节。"这完全对应选项 B。

【错误选项分析】 无中生有。此题难度较低，错误选项在原文中属于完全没有提到的信息："与同事保持良好人际关系/提前计划/理解客户需求"，选以上选项的考生是因为在听的过程中走神或者没有听懂，而完全根据自己的主观想法来作答。

Section B

Passage One

The way to complain is to act business-like and important. If your complaint is immediate, suppose you got the wrong order at a restaurant, (9) make a polite but firm request to see the manager. When the manager comes, ask his or her name. And then state your problem and what you expect to have done about it. Be polite! Shouting or acting rude will get you nowhere. But also be firm in making your complaint. Besides, act important. This doesn't mean to put on airs and say "do you know who I am?" What it means is that people are often treated the way they expect to be treated. If you act like someone who expects a fair request to be granted, chances are it will be granted. The worst way to complain is over the telephone. You are speaking to a voice coming from someone you cannot see. (10) So you can't tell how the person on the line is reacting. It is easy for that person to give you the run-around. Complaining in person or by letter is generally more effective. If your complaint does not require an immediate response, it often helps to complain by letter. If you have an appliance that doesn't work, send a letter to the store that sold it. (11) Be business-like and stick to the point. Don't spend a paragraph on how your uncle Joe tried to fix the problem and couldn't.

9. What does the speaker suggest you do when you are not served properly at a restaurant?

10. Why does the speaker say the worst way to complain is over the telephone?

11. What should you do if you make a complaint by letter?

9.

井书

【答案】C

【预测分析—关键找到每题的定位词】所有选项均为动词原形开头，多考查建议或者将要做某事，且每个选项相差较大，所以划出关键词并根据文章读到的内容定位即可：head waiter/a discount(带冠词的名词优先)/politely but firmly/person waiting on you。

【考点分析】短文开头前三句多设置考点。答案出现在短文开头第二句话。

六级短文听力多符合"所听即所选"原则，"make a polite but firm request to see the manager 礼貌但是坚定地提出见经理的要求"，完全对应选项 C。

【错误选项分析】无中生有，这些选项均是根据生活经验来误导考生，原文中并没有提及任何关于"向领班讲明问题/要求菜品降折扣"的内容。

偷换概念，原文中提到："When the manager comes, ask his or her name."是需要问经理的名字，而非选项中的"服务生的名字"。选项干扰性强，容易引起概念的混淆。

10.

【答案】D

【预测分析—关键找到每题的定位词】四个选项的态度均为消极，所以注意短文中涉及的"不好的、错误的"内容，根据关键词再确认定位即可：understood correctly/complaining at the right time/person in charge/person reacting。

【考点分析】考点标志词"worst 最差的"引出预测中所提到的消极、不正确的做法。

考点标志词 so 是因果考点，属于六级短文中的核心考点，只要出现要马上引起重视并结合选项做标记。

短文听力基本"所听即所选"原则，"So you can't tell how the person on the line is reacting (你无法知道电话中对方的反应是什么)"，这同选项 D 完全对应。

【错误选项分析】无中生有。各个选项中的内容"你的问题可能会被误解/你并不确定是否在正确的时间内作出投诉/你的投诉可能无法转达给负责的人"均为根据生活经验编写出来的干扰选项。

11.

【答案】D

【预测分析—关键找到每题的定位词】动词原形开头，表示将要做什么或者建议等。每个选项差别较大，因此划出关键词，并注意听文章中读到的选项细节：a prompt response/details/express mail/stick to the point。

【考点分析】短文的结尾容易出考点。最后原文中提到"be business-like and stick to the point 商

务化并且紧扣要点”。

短文听力多符合“所听即所选”原则，文中的内容完全在选项中出现。

【错误选项分析】 无中生有。原文中没有提到任何关于“需要迅速回复/快递寄出”的内容。

使用相反信息，选项中提到“需要所有的细节”，这跟文章内容相反，文章中是“Stick to the point. Don't spend a paragraph on how your uncle Joe tried to fix the problem and couldn't”，这是一种非常委婉的表达，意思是“不要把所有细节例如叔叔尝试修理却怎么也修不好之类的也都放在投诉信中”，而且我们可以根据 don't 等否定词发现其态度是否定的。

Passage Two

Since a union representative visited our company to inform us about our rights and protections, (12) my coworkers have been worrying about health conditions and complaining about safety hazards in the workplace. Several of the employees in the computer department, for example, claim to be developing vision problems from having to stare at a video display terminal for about 7 hours a day. The supervisor of the laboratory is beginning to get headaches and dizzy spells because she says it's dangerous to breathe some of the chemical smoke there. (13) An X-rays technician is refusing to do her job until the firm agrees to replace its out-dated equipment. She insists that it's exposing workers to unnecessarily high doses of radiation. She thinks that she may have to contact the Occupational Safety and Health Administration and asked that government agency to inspect the department. I've heard that at a factory in the area (14) two pregnant women who were working with paint requested a transfer to a safer department, because they wanted to prevent damage to their unborn babies. The supervisor of personnel refused the request. In another firm the workers (15-1) were constantly complaining about the malfunctioning heating system, but the owners was too busy or too mean to do anything about it. Finally, they all met an agree to wear ski-clothing to work the next day. The owner was too embarrassed to talk to his employees. (15-2) But he had the heating system replaced right away.

12. What does the talk focus on?
13. What did the X-ray technician ask her company to do?
14. What does the speaker say about the two pregnant women working with paint?
15. Why did the workers in the firm wear ski-clothing to work?

12.

【答案】A

【预测分析—关键找到每题的定位词】四个选项都是名词短语。短文的第一个题目多考查主题，标记出相关关键词：health and safety/rights and responsibilities/office workers/labor and management。

【考点分析】 短文开头多设置考点。答案出现在原文第一句话。

短文听力多符合"所听即所选"原则，文中提到"my coworkers have been worrying about health conditions and complaining about safety hazards in the workplace 我的同事们经常担心他们的身体状况并抱怨他们工作场所的安全隐患"，选项中完全出现材料中的内容。

例子所论证的主题句通常成为考点。

【错误选项分析】 无中生有，其他选项的细节在文章中没有提及。

13.

【答案】A

【预测分析—关键找到每题的定位词】动词原形开头，多考查建议或者具体做某事。标记出选项关键词：out-dated equipment/welfare of affected workers/government regulations strictly/health compensation。

【考点分析】短文听力多符合"所听即所选"原则。文中明显提到"An X-ray technician is refusing to do her job until the firm agrees to replace its out-dated equipment 一位 X 光技术员拒绝工作，直到公司同意替换过时了的设备"，完全对应选项。

【错误选项分析】 无中生有，都属于根据常识或者逻辑思维设置的干扰性较强的错误选项。选项中的细节在文中并没有出现。

14.

【答案】A

【预测分析—关键找到每题的定位词】四个选项均是 They 开头，因此多考查人的态度和反应。标记出关键词，注意涉及具体人事的细节：a safer department/unborn babies/union representatives/poor working conditions。

【考点分析】 短文听力考查多符合"所听即所选"原则。原文提到："...two pregnant women, who were working with paint, requested a transfer to a safer department, because they wanted to prevent damage to their unborn babies. 两名涉及涂料工作的怀孕女性，申请调离到更安全的部门工作，因为她们想要防止未生的婴儿受到伤害。"此处选项中内容完全提及。

因果关系词 because 前后出考点。

【错误选项分析】 无中生有。选项利用文章中提到的 unborn babies 干扰，错误选项中提到的"辞职"细节在原文中没有出现。无中生有，选项中的相关信息在文章中没有涉及。

15.

【答案】C

【预测分析—关键找到每题的定位词】不定式开头，多考查做某事的目的或者将要做某事，注意表示原因的考点信号词。

【考点分析】 短文听力考查同义替换。原文中提到"complaining about the malfunctioning heating system...wear ski-clothing to work the next day...heating system replaced right away 抱怨出故障的暖气系统.....穿着滑雪服上班.....暖气系统更换"。很明显这是一个解决问题的过程，因此推出工人们穿滑雪服上班的原因是为了"抗议艰苦的工作环境"。需要理解短文意思来推测出答案。注意考点中出现的逻辑关系词 but, finally。短文的结尾处(最后两句)容易出现考点。

【错误选项分析】 无中生有，文中没有提到任何相关细节。

Section C

Lecture 1

Good morning everyone, today we'll discuss some preliminaries concerning how to write experimental reports.

When you first signed up for a course in university, like a psychology course, chances are that you didn't really expect what was coming in your study, particularly the course emphasis on methodology and statistics. For a few of you, this may have come as a pleasant surprise provided that you have already known something about the course. For most, however, I dare say, it will undoubtedly have been a shock to the system. No doubting in other parts of your course study, you will read books and journals, examining critically, models and theories, assumptions and hypothesis put forward by scholars and specialists. (16) My task today is to help you understand some of the important features of the experimental reports. Because you will have to write up some kind of report of this nature if your course gives prominence to practical work, especially experimenting.

Then what is an experimental report? (17) All the report is, really, is the place in which you tell the story of your study, like what you did, why you did it, what you found out in the process and so on. In doing this, you are more like an ancient story teller, whose stories were structured in accordance with widely recognized and long established conventions than a modern novelist who is afraid to dictate form as well as content.

Then perhaps you may ask what is the nature of the conventions governing the report? A clue, I think, can be found in its basic structure. A highly structured and disciplined report is written in sections, and these sections, by and large, follow an established sequence. What this means is that, in the telling, your story is to be cut up into chunks. Different parts of the story are to appear in different places in the report. (18) What you did and why you did it appear in the section called introduction. How you did it is in the method section, and what you found out is in the result section. And finally, what you think it shows appears in the discussion part.

But today, I will introduce to you certain general rules straight away. You need to make sure that you have, first, introduced the reader to the area relevant to your study; Second, provided the reader

with the background necessary to understand what you did and why you did it; Third, spelt out and developed your arguments clearly; Fourth, defined technical terms, and fifth, (19) provided precise details of the ways in which you went about collecting and analyzing the data that you obtained. In short you should write for someone who knows little about your area of study, taking little for granted about your reader's knowledge of your area of study. So when in doubt, spell it out. This is my advice to you.

16. What is the focus of today's speech?

17. Which factor is not mentioned in the lecture as part of experimental report?

18. What does the speaker say about introduction?

19. What is the speaker's advice on writing experimental reports?

16. 【答案】 D

【预测分析—关键找到每题的定位词】

四个选项均以 About how to 开头，可以猜测是考查文章主旨。划出关键词：do experiments 做实验/write report 写报告/read books and journals 读书和杂志/characteristic of the experimental reports 实验报告的特点。

【考点分析】

此题考查同义替换。原文中说"我今天的任务就是帮助你们理解实验报告中的一些重要的特点"，其中 features 和选项中的 characteristic 构成同义替换。

此题也是一道主旨题。"我今天的任务就是帮助你们理解实验报告中的一些重要的特点"就是文章的主旨句。

【错误选项分析】

细节信息干扰。A 项不对，是因为文章首句便指出"今天我们将要讨论关于写作实验报告的初步的知识"，因此可以知道文章的主题是写作实验报告，而不是做实验。B 项错在"不同类型的报告"。根据原文"你将会需要写作这种性质的一些报告"，这种性质指的就是实验报告，而不是其他任何报告。C 项也不是文章讨论的焦点。根据原文中"你将会需要阅读一些会批判性地检验由专家学者们提出的理论、观点和假设的书和杂志"可见，文中只说了阅读这项行为，并没有提及怎么阅读。错误答案的设置，通常是通过截取或者补充添加原文细节来进行干扰。

17. 【答案】 A

【预测分析—关键找到每题的定位词】

四个选项中有三个是以 w 开头的疑问词，分别表示"过去的实验、你做了些什么、为什么这么做以及在这个过程中发现了什么"。听时须留意相关信息。

【考点分析】

本题考查所听即所选。但是这道题有点特殊，题干问的是"哪一项没有提到"。原文中说，"一份实验报告就是你描述你的研究事宜的地方，比如你做了些什么，你为什么这么做，在这个过程中你发现了什么等等。"其中就明确包含了 B, C, D 三项中的内容。所以只有 A 项"过去的实验"没有

提到，故选 A。

注意题干中出现的否定词，边听边做笔记，可以把听到的内容在选项边适当标记，最后选出原文中没有涉及到的选项。

【错误选项分析】

答非所问。A 项的"过去的实验"是文中未提及的内容。而题目就是问的没有提及的内容，所以正确。

18. 【答案】 B

【预测分析—关键找到每题的定位词】

类似上题又不同于上题，四个选项均以 w 和 h 疑问词开头，意思分别是"怎么做、做了什么、发现了什么以及想的是是什么"。听时需留意相关语句。

【考点分析】

所听即所选。原文中说，"What you did and why you did it appear in the section called introduction. 出现在这个部分的关于你所做的和为什么要这么做就是引言。"其中，what you did 和 B 项完全一致。

在 lecture 中，这种介绍性或者分论点性的主旨陈述句通常成为考点。

【错误选项分析】

偷换概念。根据原文中"How you did it is in the method section, and what you found out is in the results section. 怎么做应当放在方法部分，发现的成果应当放在结果部分。"可以知道，A 和 C 不属于引言的内容。

无中生有，文中并没有提及"你是怎么想的"这项内容。

19. 【答案】 C

【预测分析—关键找到每题的定位词】

划出关键词：information in references 参考资料中的信息/finish survey 完成调查/collect and analyze data 收集和分析数据/background is unnecessary 背景是没必要的。此题属于细节题，须留意相关信息。

【考点分析】

此题考查同义替换。原文中第五条建议就是"provided precise details of the ways in which you went about collecting and analyzing the data that you obtained 须精确描述你是怎样收集和分析你所获得的数据的"。其中，the way in which 和选项 C 中的 how 构成同义替换。

前三后二原则。文章结尾处通常是考点。

【错误选项分析】

无中生有。文中并未提及在参考资料中收集尽量多的信息和要求朋友和同事完成调查两项内容。使用相反信息。原文中的第二项建议说，"可以提供给读者相关的背景信息,以便于让他们了解你所做的事情和为什么这么做的理由。"于是可以看出，文中的这个表述和 D 项中的"背景有时是没

有必要的"意思相反。

Lecture 2

Good morning, everyone. Today we'll look at cultures, or rather classifications of cultures. Usually when we deal with different people, we deal with them as if we were all members of the same culture. However, it's possible that people from different cultures have different assumptions about the world, regarding such important and basic ideas as time, personal space. And this is the view of Edward Hall. And Edward Hall is an anthropologist who spent a large part of his life studying American Indians, their culture, their language. But he was different from a lot of other anthropologists who just study one culture. He was interested in the relations between cultures, how cultures interact. (20) What Hall believes is that cultures can be classified by placing them on a continuum ranging from what he called high-context to low-context.

OK, what is a high-context culture? A high-context culture is a culture in which the context of the message, or the action, or an event carries a large part of its meaning and significance.

Now, let me give you examples. First, in terms of personal space, generally speaking, in a high-context culture, because there's greater dependency on group thinking, people lean towards heavier sense of involvement or closeness to people. And (21) they have less respect for privacy, for personal space.

Second, in terms of time, people in high-context cultures are considered to have what is called a poly-chronic attitude toward time. Here "poly" means multiple and "chronic" means time. What this means is that they believe people, things, events, have their own time. And there can't be a standard system of time for everything. What this leads them to believe is that you can't emphasize punctuality. Things happen when they are supposed to happen.

Now, let's move on to low-context culture. A low-context culture is just the opposite. A low-context culture is one in which the message, the event or the action is a separate entity having meaning onto itself, regardless of the surroundings or the context.

For example, in terms of personal space again, there's more emphasis on individuality. So the concept of privacy is very, very important. Or as before as I said, in a high-context culture, they might not even be concerned with privacy or personal space. But in a low-context culture, there's a feeling that we each have our own personal space. If you get too close, if you don't knock on doors before entering, that's an invasion of privacy. People feel violated.

Another example of a low-context culture is people's attitude towards time. In terms of time, I said before, there was a poly-chronic sense of time in a high-context culture. What do you think there would be in a low-context culture? Mono-chronic. Right. A mono-chronic sense of time and by that we mean that there's one time. And that concept means that people in a low-context culture believe that (22) there's one standard of time and that should be for everything and so are not willing to hear "Oh, the traffic was heavy. That's why I'm late" or "Oh, I slept late". People in a low-context culture would be much more upset with lateness because they feel that everyone should follow the same time. There

shouldn't be all this flexibility with time and they expect punctuality. And they look at time as almost a commodity that they use expressions like "use time, to waste time, to spend time or time is money". All of these expressions reinforce the concept that time is actually something you can hold on to.

井书

20. What does the speaker say about Edward Hall?

21. What does the speaker say about high-context culture?

22. Which of the following opinions might not come from a low-context culture person?

20. 【答案】 B

【预测分析—关键找到每题的定位词】

四个选项都以 He 开头，是对人物的特征的描写，须注意相关信息。划出关键词：studying Indians 研究印第安人/cultures can be classified 文化可以被分类/similar research as other anthropologists 做和其他人类学家一样的研究/relations between cultures 不同文化之间的关系。

【考点分析】

所听即所选。原文中"what Hall believes is that cultures can be classified by replacing... 霍尔相信文化可以被分类....."同选项中的"他相信文化可以被分类"一致。

须多加留意首段最后一句，通常是总括性的主旨句。如原文中第一段最后一句，"霍尔相信，文化可以划分为 high-context 和 low-context。"接着下文就开始分别论述 high-context culture 和 low-context culture。

【错误选项分析】

偷换概念。原文中说的是"他毕生的大部分精力都在研究美洲印第安人"，不同于选项 A 中的"印第安人"。

使用相反信息。根据文中"但是他不同于很多其他只研究一种文化的人类学家们"，可以判断 C 项中的"他同其他人类学家们研究的内容一样"不正确。同理，根据文中"他对不同文化之间的关系很感兴趣"可以判断，D 项中的"他对文化之间的关系不感兴趣"意思完全相反，所以也不正确。

从这里可以看出，信号考点标记词后经常是考点，比如这里的转折类信号词 but。

21. 【答案】 A

【预测分析—关键找到每题的定位词】

先划出关键词：less respect for personal space 没那么尊重个人空间/pay more attention to individuality 更关注个性/knock before entering their rooms 在进屋之前敲门/western-style 西式风格。

【考点分析】

所听即所选。原文中说，"They have less respect for privacy, for personal space. 他们对个人隐私和个人空间没那么尊重。"A 项中的"他们对于个人空间没那么尊重"完全符合文中的表述。

分论点中出考点。

【错误选项分析】

干扰信息。B 项中的"他们更关注个性"和 C 项的"进屋之前必须敲门"都属于后文干扰信息。

无中生有。D 项的"他们偏向于西式的风格"并未在文中提及，属于无中生有。

22. 【答案】 C

【预测分析—关键找到每题的定位词】

四个选项都和有关。分别表示：时间就是金钱/我会按时到那里/交通很拥堵/不要浪费时间。

【考点分析】

所听即所选原则。原文中提到，"时间只有一个标准，一切事物都应遵循这个标准，所以人们不愿意听到'交通很拥堵，所以我迟到了'这样的话。low-context 文化中的人们很讨厌延迟这件事。"所以，C 项"the traffic was heavy 交通很拥堵"也就不大可能是他们的主张，即是答案。

特别注意题干是反意提问。

【错误选项分析】

答非所问。因为题目问的是，哪一项观点不大可能是 low-context 文化中的人的观点，A 项"时间就是金钱"是原文中的原句。B 项"我会按时到达"是原文中"they expect punctuality 他们希望的是守时"的同义改写。D 项"不要浪费时间"即是"守时""时间就是金钱"的相同概念。

Lecture 3

Good morning, everyone. (23-1) Today we will look at how to observe behavior in research. Perhaps you would say it is easy and there is nothing extraordinary. Yes, you may be right. (23-2) All of us observe behavior every day. For example, when traveling in another country, we can avoid embarrassment by observing how people behave in that culture. And failing to be observing while walking or driving can be life-threatening. We learn by observing people's behaviour. Researchers, too, rely on their observations to learn about behaviour, but there are differences.

Then how are we going to conduct observations in our research studies, and what do we need to do in order to make a scientific and objective observation? Now, as you remember, the primary goal of observation is to describe behaviour, but it is in reality impossible to observe and describe all of a person's behaviour. So we have to rely on observing samples of people's behaviour. Doing so, we must decide whether the samples represent people's usual behaviour. Thus, we will first take a brief look at how researchers select samples of behaviour. Before conducting an observational study, researchers must make a number of important decisions. That's about when and where observations will be made. As I've said before, the researcher cannot observe all behaviour. Only certain behaviours occurring at particular times, in specific settings, can be observed. (24) In other words, behaviour must be sampled.

In this lecture, I will briefly introduce two kinds of sampling; that is, time sampling and situation sampling. Now first, time sampling. Time sampling means that researchers choose various time intervals for their observation. Intervals may be selected systematically or randomly. That is to say, intervals between observation periods could vary—some longer, others shorter. One point I'd like to make is, systematic and random time samplings are not always used in isolation. They are often combined in studies.

Now let's come to situation sampling. Then, what is situation sampling? It involves studying behaviour in different locations and under different circumstances and conditions. By sampling as many different situations as possible, researchers can reduce the chance that their observation results will be peculiar to a certain set of circumstances and conditions. Why? (25) Because people, or for that manner, animals, do not behave in exactly the same way across all situations. For example, children do not always behave the same way with one parent as they do with the other parent, and animals do not behave the same way in zoos as they do in the wild. So, by sampling different situations, a researcher can make more objective observations than he would in only a specific situation.

OK, in today's lecture, we have focused on how to make decisions of sampling before beginning our observation, and what we can do during observation. I hope what we've discussed will help you in your future research design.

- 23. What is the focus of today's speech?
- 24. What is said about observing samples?
- 25. Why is situation sampling necessary?

23. 【答案】 C

【预测分析—关键找到每题的定位词】

划出关键词：life-threatening accident 威胁生命的故事/travel in another country 在其他国家旅行/observe behavior in research 在一项研究中观察行为/avoid embarrassment during behavior observation 观察行为时避免尴尬。

【考点分析】

前三后二原则。文章问候完之后的前三句话容易出答案。原文中"Today we'll look at how to observe behavior in research.今天我们来查看如何在—项研究中观察行为"就是全文第二句。所听即所选。选项 C 的表述与原文完全一致。

【错误选项分析】

拼凑正确细节。原文中"All of us observe behavior every day.我们每个人每天都在观察行为。"是对文章主旨的展开论述，"走路或开车时如果不注意观察，就可能会有生命危险"是为了论述主旨举的一个例子。选项 A 把这个句子重新进行了拼凑，当然不是文章主旨。

偷换概念。原文中 when traveling in another country 是对主旨的展开论述后举的例子，并不是主旨。细节干扰。原文中"All of us observe behavior everyday.我们每个人每天都在观察行为。"是对文章主旨的展开论述，avoid embarrassment 是针对这一论述举的例子。

24. 【答案】 A

【预测分析—关键找到每题的定位词】

划出关键词: observing samples of people's behavior 观察人们行为的样本/observe all behaviors 观察所有行为/more effective than time sampling 比时间样本更有效/easier than situation sampling 比情景样本更容易。须留意相关信息。

【考点分析】

同义改写。原文中说, "In other words, behavior must be sampled.换句话说, 行为必须样本化。"这和选项 A 的"我们必须倚靠观察人们行为的样本"是同义改写。

【错误选项分析】

使用相反信息。原文中说, "As I've said before, the researcher can not observe all behaviors.正如我之前说过的那样, 研究者无法观察全部的行为。"这与 B 项"研究者可以观察全部的行为"意思相反。

无中生有。无中生有的比较和细节干扰。

25. 【答案】 B

【预测分析—关键找到每题的定位词】

四个选项全部是 Because 开头, 须留意 because 后的信息。划出关键词: time-saving 节约时间的/act differently in various situations 不同情景中表现不同/various time intervals for observation 选择不同的时间间隔进行观察/difficult to conduct 难以操作。

【考点分析】

此题考查同义替换。原文中说, "Because people, ... do not behave in exactly the same way across all situations.因为人们在不同情景中的表现不同。"

考点标记信号词后出考点。本题即考查因果类考点标记信号词 because 后的内容。

【错误选项分析】

无中生有。文中并未提及情景类取样能节约时间。

偷换概念。可以选择不同的时间间隔来进行观察是时间取样的定义。

无中生有。文中并未涉及时间取样很难操作的信息。

Part III Reading Comprehension

Section A

26. E. 本空位于空前 in 引领的介词成分中, 需要名词, 且空前没有冠词或代词, 因此本空需要的是可数名词复数或不可数名词。备选的有 A) victims"受害者"、B) technology"技术"、E) projects"项目"、F) offers"提议, 提供"、G) information"信息"、H) images"图像"。本空所说的是, "一些国家的孩子们参与了和平教育", 意思合适的只有 projects。

27. C. 本空位于动词搭配 take on"承担"之后、介词 of 之前, 空前的 the 提示本空需要名词。备选的还有 A) victims"受害者"、B) technology"技术"、C) role"角色"、F) offers"提议; 提供"、G)

information"信息"、H) images"图像"。能作为 take on 的对象且可以与空后的 peacemaker"调解人"构成合理搭配的, 只有 role。本句的意思是: 在学习了如何解决冲突之后, 孩子们承担起了调解人的角色。

28. O。本空位于空前 Groups of children 的后置定语中, 需要动词分词。备选的有 N) assuming"假设"和 O) acting"表演, 扮演"。空后的 as 提示这里需要不及物动词, 因此只能考虑 acting。注意本空并非是该句的谓语动词, 该句的谓语动词是之后的 studied。

29. F。本空是该句的谓语, 且由于主语 the classroom 是单数, 因此本空需要动词第三人称单数。剩余备选的只有 offers"提供"。

30. L。本空与空后的 peaceful 并列修饰 ones, 可知需要形容词。备选的有 K) entire"全部的"、L) cooperative"合作的"和 M) comprehensive"全面的"。注意: 本空要与之后的 peaceful"平静的"并列, 且前面的 replace...with (用.....代替) 也提示了本空要与 angry, violent (愤怒、暴力) 构成反差, 最合适的是 cooperative"合作的"。

31. I。本空是在修饰空前的 take a step"迈步", 需要副词。备选的有 D) respectively"各自"、I) forward"向前"和 J) especially"尤其"。空后的 toward 也提示了该空需要表示的状态是朝着一个目标前进。最合适的是 forward。

32. J。本空是在修饰空后的形容词 useful"有用的", 需要副词。备选的有 D) respectively"各自"和 J) especially"尤其"。能与 useful 构成意思合理搭配的只有 especially。

33. G。本空是在与空前的 resources for teachers (给教师的资源) 并列, 需要名词; 且由于空前没有冠词或代词, 因此需要可数名词复数或不可数名词。备选的有 A) victims"受害者"、B) technology"技术"、G) information"信息"、H) images"图像"。能与 resources 构成并列且与空后的 on 构成搭配的, 只有 information。

34. A。本空空前的定冠词 the 与空后的 of 提示了这里需要名词, 且由于空前没有冠词或代词, 因此需要可数名词复数或不可数名词。备选的有 A) victims"受害者"、B) technology"技术"、H) images"图像"。能作为空前的 help 的对象的只有 victims。

35. K。本空空前是定冠词 the, 空后是名词 school, 可知本空需要形容词来形容 school。剩余备选的形容词有 K) entire"全部的"和 M) comprehensive"全面的"。能与 school 构成合理搭配的只有 entire。该句中提到的 a class...spread to other classrooms... (一个教室.....扩展到其他教室.....) 也强调了影响范围之广, 是对 entire 的暗示。

Section B

36. F。本句的 employers 可以用于定位，出现在 F 段第二句。36 句对应的也是该句的意思。36 句的 important to keep 与该句的 worth holding on to 同义。

37. K。本句的 recent study 和 European countries 可以用于定位，出现在 K 段第三句。37 句对应的也是该句信息。37 句的 regular weekly contact 是该句中的 in touch at least once a week 的改写。

38. D。本句的 governments in rich countries 可以用于定位，出现在 D 段第二句。该句的 embark on reforms but only timidly（开始改革，但很胆怯）与 38 句的 few...launched bold reforms（很少开展大胆改革）同义。

39. A。本句的 report, 20 years ago, pension 和 sustainability 可以用于定位，出现在 A 段，尤其是 A 段末句。20 years ago 指的即是 A 段中提到的 1990 年、1994 年等 90 年代。39 句提到的 sustainability...was called into doubt（可持续性受到质疑）与 A 段末句的 argue...were unsustainable（认为.....不可持续）同义。

40. M。本句的 Countries that have a shortage of young adults 原样重现在 M 段首句，less willing 与该句的 reluctant 同义，war 是对该句的 military service 的改写。

41. I。本句的 one-child 可以用于定位，出现在 I 段末句。本句的 the stress of urban life 对应的是 I 段倒数第三句的 Modern urban life in rich countries is not well adapted, the difficulties of balancing family and career 对应的是 I 段倒数第二句的 hard to combine family and career。

42. B。本句的 books 和 Americans 可以用于定位，出现在 B 段首句。A series of 与 B 段首句的 a succession of 同义。conflicts between the older and younger generations 是对 B 段第二句意思的概括，也可对应 B 段末的 intergenerational warfare。

43. J。本句原样重现在 J 段第三句。

44. E。本句定位模糊，对应的是 E 段第三句。44 句的 pension 在该句中重现。该句的 the most effective method 与 44 句的 the best solution 同义；give people the opportunity to work longer 被 44 句改写为 postpone the retirement age。

45. H。本句的 Immigration 可用于定位，出现在第 G、H 段。但 shrinking labour force 出现在 H 段第三句。meet with resistance in some rich countries 对应 H 段倒数第二句的意思。因此本句真正对应的只能是 H 段。G 段整体描述的是 Immigration 的正面效果。

Section C

Passage One

46. D. 题干的 consumers, businesses and investors retreat and panic 出现在首段第二句中，本题问的是此现象的原因。原句中，此现象前的 it causes 提示了原因是 it 所指代的 fear of the unknown（对未知的恐惧），D 选项即是对此的同义改写。A 的 suffer great losses, B 的 dysfunctioning 和 C 的 the normal social order will be paralyzed 在文中均未提及。

47. B. 题干的 Christina Romer 出现在第二段首句，B 选项即是对该句引用的他所说的 the initial blow to confidence far greater now than then 的重现。这里的 then 指的即是该句首提到的 1929。A 与第二段态度相悖。C 所说的受影响的人数的比较在原文没有提过，原文只比较了各领域的财富受到的影响。D 的 a free fall of the prices of commodities 在第二段没有提过。

48. A. 题干的 current recession turn into a depression 和 Christina Romer 出现在第三段首句。本题所问的原因在该句中被用 reflect 引出，A 选项即是对这里的 countermeasures taken by the government（政府采取的对策）的改写。B 选项在第三段第二句被作者用 but 部分否定。C 选项出现在第二段末，与本题题干所问的关系不大。D 选项所描述的行为出现在第三段第三句，但根据该句的态度，作者是否定这种行为的，并未将这视为题干认可的原因。

49. B. 题干的 chief purpose 对应第三段末句的 the same psychological purpose，本题的答案对应其后冒号引出的内容。B 选项即是对该句后半部分信息的改写，该句的 perpetuate 被 B 选项用 last 同义替换。其他选项均未提及。

50. C。C 选项即是对作者全文末句观点的同义转述。A 则与之相反。B, D 选项体现的明显的积极态度也是作者没有表现的。

Passage Two

51. D. 首段的核心即是作者对首句提出的问题的观点，出现在第三句。D 选项即是对该句的同义改写。consensus（共识）与该句的 no conclusive definition（无确定的定义）同义。A、C 过于绝对，B 未提及。

52. A. 结合下题，本题考查的是第二、三、四段。A 选项是对第四段首句的改写。living standard 对应第四段首句的 material well-being（物质福利）。B 选项曲解了第三段的意思。C, D 未提及。

53. B. 题干的 the administration's proposal for a "supplemental poverty measure" 首次出现在第五段第二句。该句句首的 unfortunately 以及之后提到的 goes beyond that 都暗示了作者对此的负面态度。第五段末句作者提到"此数据是否是为有利于政治宣传而制定"（whether the statistic is tailored to

favor a political agenda），结合作者明确的负面态度，可得知作者怀疑此事有政治目的，对应 B 选项。A，C，D 态度上均偏向正面，在肯定、积极效果。

54. A。题干的 new measure of poverty 对应第七段第三句的 new measure。A 选项的 the gap between the rich and the poor 即是对该句 a given distance from the top 的同义改写。C，D 与作者的质疑态度相悖。B 选项的 the threshold for the poor to get welfare benefits 文中未提及。

55. C。题干提到的 Daniel Moynihan 出现在末段首句。题干所问的是作者引用该人的话的目的，也就是作者本人的观点。这出现在末段第三句的 But 后，特别是最后两句："政府数据应当力求政治中立，但这个数据没能做到。"（Government statistics should strive for political neutrality. This one fails.）C 选项的 biased（有偏见的）即是"不中立"的意思。A"经济平等只不过是一场空"、B"政治中立永远无法实现"、D"关于贫困的争议一无所获"都过于极端。

Part V Translation

Chinese cooking culture can be traced back to the Shang and Zhou dynasties 3,500 years ago. With the economic growth of various periods, people have always been exploring cooking techniques. The accumulated experiences have eventually led to as many as 10,000 kinds of dishes and over 40 ways of cooking in China. In the long course of history, Chinese cuisine has gradually developed into southern and northern tastes. In general, the former emphasizes freshness and tenderness, while the latter uses more oil and more vinegar and garlic as a result of the cold weather. Besides, northern people prefer noodles, dumplings and other staple food made from flour, and people in the south favour rice.
